DESCRIPTION. Thousands of years ago, there was a legendary arcane stone, known as the Elden Stone. It was discovered by a great leader of humanity and power, named Lord of the Dawn, then it was sealed in a special vault and the world was spared the calamity that would have happened if the Elden Stone was cast into the sky. Time passed, and the Elden Stone was taken back to the vault by the Elden Lord, who embarked on a ritual to bring it back to power. While the ritual was about to begin, the Lord of the Dawn was brutally slain by the parasitic Demi-Elden, a race of creatures with parasitic abilities, and the evil Demi-Elden afflicted a dark curse upon the Elden Lord's heir, a weak, perverted princess. The Elden Stone, which had been sealed into the vault, was then infected by the demonic power of the Demi-Elden. In the present, the Prince of Dawn has been appointed to pacify the Demi-Elden and restore the Elden Stone. A young and innocent archeologist named Yuusuke Yukihiro is considered to be the one person who will give birth to the Prince of Dawn. The wise scientist, Ikuro Sudo, sets out on a journey with Yuusuke in an attempt to find a way to prevent the Prince of Dawn from becoming infected.

## **What's new:**

**Cover Art See that map, Lord? It's not every day I get to use a map that looks like it's from the year 16th century! I can start up Imagery right in-game! Ooh, that's familiar! Now that symbol, Lord, is a symbol I've only seen in my nightmares! Did you know that it's the same symbol from the Beginning of the Endless Story - your memories of the Elden Legend? I know it's late but...I can't wait for it to be 30th of April! Investing around a thousand gold in your estate instantly, AND gaining an extra 20% in offline bonuses In addition, there will also be Ascension Bonus Days - each day in the month of April, you'll have a bonus of your Estate income! Use multiple cells! (EA plans to balance this aspect) There will be inns where you can stay. There will also be inns where they charge more than like a guild inn. If you're interested, you can read about the designs on my Twitter ( Overall the game has been developed to be interesting and fun to play just by buying the expansion pack. If you liked the original Elden Ring, I think it's worth buying the expansion to enhance your gameplay experience and boost your character. There are plenty of things to try out. You can experiment with different combinations, and you can enjoy fun battles with memorable characters. Of course, you can also customize your character. It's a game that lets you place importance on what you want to do with your character. If you want to be a warrior, you can aim for the strongest melee classes, or if you want to be an assassin, then you can just speed through the game murdering the bosses. (If you murder a boss, you can unlock their weapons.) Speaking of the expansion pack, it's a bonus expansion so I didn't need to change up the overall game balance. You can still unlock heroes with various materials while the other heroes follow the overall design theme. More importantly, with the new characters, you can use some tricky skills to woo over the master card and play some unique strategies. Personal Opinion: The interest of the expansion pack was realized mainly by the addition of new characters. Not only was I pleasantly surprised that it was possible for new parties to be added with the new characters, but playing with those characters was super**
