Enforcer of the Hypnospace Patrol What is Hypnospace? Hypnospace is the online hyperspace that residents of the world have always known and always dreamed of. It is a virtual world of websites, gadgets and other cyberspace paraphernalia, where almost all Hypnospace websites are freely accessible to any resident of the world. But, most Hypnospace websites aren't actually run by the residents themselves; rather, they are programmed and owned by corporations that profit from Hypnospace. Hypnospace is known for its incredible size and variety of websites, and the most significant point of Hypnospace law is that citizens are not allowed to sue Hypnospace corporations for what they do in Hypnospace, or for what they don't do in Hypnospace, but rather they must only contact Hypnospace officers to report violations and concerns. As of now, the Hypnospace Patrol Department has begun giving out mobile apps for the Hypnospace Patrol! Now, with Hypnospace Outlaw, you can get your hands on all those apps for your iPhone and Android in mere seconds. **Objective:- Beat the mean by over 100 points. Add bonus points. The card you choose to use in your decks are determined by an algorithm that still inspires debate and discussion every weekend. The rules are simple. Pick different types of cards to create your decks and compete. Played out the story you are presented with on the news and various video games which you might use in your game. I recommend going to the Wiki for some more ideas (link included). Make sure you've read the whole Wiki here before playing, because you need to know what these cards do if you plan to do well. Good luck! Rule:-Only one of each card per person.-No penalties for cards-Give credit where credit is due 1) You picked this card because it was unexpectedly available in this pack.2) This card gives you +1000 Points if both appear on the board.-It also gives you +1000 Points if this deck appears in your opponent's hand.3) Set its price at \$10 1) Keep up on the news. Be especially attentive when Arrowman's World Event is going on. Watch the TV. Learn facts about what will occur in the final days.-For 10 Points, draw an unlucky card from your deck. -This card helps you at the end of the round. -You lose 10 Points for using this card.-The price is doubled for this card.-You don't lose points for this card if you have a positive amount of points and draw this card on the last round of the game. (For example, if you have 1 Point and 2 Points on the board and draw this card on your first round, you lose 10 Points.)-The price is doubled for this card if you have a negative amount of points.-There is a 50% chance this card will appear at the beginning of the round.-It's a cross promotion with the "They Live" deck. This deck is going to be released to the server this weekend. Not sure when the card will be released. 1) This card is recommended for people who are trying to get the better of enemies who have double bonus cards.-You lose 20 Points for using this card.-The price is doubled for this card.-You don't lose points for this card if you have a positive amount of points and draw this card on the last round of the game.
