
Fmge Mci Diams Dams Lectures N Notes

the best thing about dams is that they provide the most updated books with chapter wise explanation for each and every question. i am not saying this because they are helping me for my neet pg preparation. but its the fact that their books are the most updated with chapter wise explanations. if you have already studied the chapter then you can just go through the question and you will get most of the answers right without any problem. once you have done the question with confidence, then you can move to the next chapter and get the answers for that. they provide this material very in a cheap price. you can easily find its material on the internet. and in dams classroom, you have the actual material and you can use that for revision. the amount of material that they provide is more than what is needed for the preparation of one subject. it is like they have the complete material for all the subjects, they are just selling it for a nominal fee. so, even if you have to pay rs 2000, its worth it. dams is the only coaching institute that provide material at a cheap price. all the other coaching institutes i had been to were charging more than rs 10,000 for the preparation of one subject. anyway, that was in my opinion. the content provided by dams has huge value and you need to study it properly. in my opinion, you can study in a more confident manner if you study the book with the assistance of notes. i had a very good experience with them. i didn't pay more than rs 2000 for the preparation of my pg entrance exam and i am prepared. i would say dams is the only institute that provides the subject material in the most updated format. all the other coaching institutes have their material either in the form of books or notes but they are not the most updated.
