## Archicad Serial Key

The first step towards registering your archicad serial key is to retrieve it from the graphisoft.de website. You will need to enter your email address, your username and your password and you will get your code. Once you receive your key you can start sending the remaining codes to people who have purchased ArchiCAD. Registering your ArchiCAD serial key is the second step. The registration page is accessed by entering your registration code (by clicking the button on the top of the page) and a reminder message will appear. Make sure you register your code prior to upgrading the software or you will not be able to access the upgrade! Graphic Designers are like any other professional; they need to access their files at all times. However, ArchiCAD is different from a desktop computer because it is a tablet-like computer. Graphics are stored on an internal SSD (Solid State Drive) as opposed to a hard drive. Therefore ArchiCAD will prevent you from accessing files when you are not working on your ArchiCAD project. (Think of a tablet PC that you can't close unless you are at your desk.) Portable drives are not difficult to buy. Our ArchiCAD serial key generator will quickly provide you with a list of the portable drives available to you on the internet. You just need to make a selection for the drive you would like to purchase. The final page will display a list of your previously generated ArchiCAD 17 serial keys. If you choose to, you can generate a second list of ArchiCAD 10 and ArchiCAD 13 serial keys in addition to your ArchiCAD 17 serial keys.No network
