[email protected], Microsoft Windows Disk-O: How to increment code and test the same c-arc with multiple return statements? I would like to use the return statement to help me increment my code and take the same code to test. I will test what each of the three return statements in the function do and then output the code changes. But I would like to increment the code in the same line, just like in a while statement. int curr; int num = 1; void increment() { if (curr < 10) { if (num == 10) { //code here return; } num++; } else if (curr < 50) { if (num == 50) { //code here return;
